Employment and positions

Institute of Metallurgy and Materials Science, Polish Academy of Sciences: Ph.D. studies (2002-2007), assistant professor (2007), Professor of Polish Academy of Sciences (2014), Accredited Testing Laboratories at the Institute of Metallurgy and Materials Science of the Polish Academy of Sciences, Laboratory of Scanning Electron Microscopy (2005).

Scientific Career

M.Sc.: Jagiellonian University, 2002

Ph.D.: Institute of Metallurgy and Materials Science, Polish Academy of Sciences, 2007, "*Characteristics of the phenomena occurring at the interfaces of the interconnections obtained in diffusion soldering of copper with indium alloys*".

D.Sc.: Institute of Metallurgy and Materials Science, Polish Academy of Sciences, 2014, "*Micro structural and thermodynamical analysis of high temperature interaction of aluminium with oxide substrates (Y₂O₃, NiO, ZnO, SiO₂), as a starting point to obtain ceramic-metal composites of mutually interpenetrating lattices*".

Scientific achievements

total number of scientific papers - **70**, total number of citations - **130**, h-index - **8**

The most relevant publications during last 5 years

Research Projects

Supervisor

-
Structural transformations during Al-Al₂O₃ in situ metal-ceramic composites formation, Project No. N N507 272836, IMMS PAS, 2008-2011

-
High temperature interaction of aluminum with ZnO and NiO single crystals o various orientations, Project Iuventus Plus (IP2011061071), IMMS PAS, 2012-2013

-
Periodic layers structure formation in the solid state reactions in systems Mg/SiO₂, Zn/Co₂Si and Zn/Ni₃Si (2014/15/B/ST8/00195, 2015-2018)

Participant

-
Joint research within EkoKat Net Innovative catalytic materials for protection of eco-system, Research and Development Project - Special fotovoltaic systems for the application in the Polish Army, (Nr 0021/R/T00/2009/08, 2009-2011)

-
International Project - not co-financed - The application of transient liquid phase (TLP) soldering process in the production of electronic joints dedicated to work at elevated temperatures, (2009-2012)

-
Development Project - Invention and examination of charging station for electric vehicles based on solar cells (10002010, 2010-2013)

-
Research Project - Characteristics of structure and properties of Ni/Al₂O₃ composite coatings (2011/01/D/ST8/05318, 2011-2014)

-
Research Project - Microstructural and kinetic characteristics of the phenomena occurring at interfaces in (Sn,Ni)/Cu diffusion couples, (2011/03/B/ST8/061585, 2012-2015)

-
Research Project - Characteristics of Al based composites reinforced with quazicrystalline particles (2011/03/B/ST8/05165, 2012-2015)

-
Research Project - Advanced investigation of reorientation of martensite variants in plastically deformed monocrystals of Ni-Mn-Ga, (2011/03/D/ST8/04017, 2012-2015), contractor.

-

Research Project - Microstructural and kinetic characterization of the phenomena occurring at the solder/substrate interfaces of the Ti-6Al-4V alloys brazed with the use of amorphous TiZrCuPd ribbons, (2013/11/B/ST8/04286, 2014-2017)

-

The National Centre for Research and Development and The National Fund for Environmental Protection and Water Management, „GEKON - Generator Koncepcji Ekologicznych”, (GEKON2/04/266475/6/2015, 2016-2018).

European Union Projects

-

Operational Programme Innovative Economy, co-financed by European Cohesion Funds, Reliability improvement of lead-free interconnections in electronic packages, POIG.01.03.01-00-103/09), participant, 2010-2014.

Experience gained abroad

Max - Planck Institut für Metallforschung, Stuttgart, Germany 2003 (2 weeks),

Technical University Eindhoven, The Netherlands 2004 (1 month),

Technical University Eindhoven, The Netherlands 2005 (1 month),

Max - Planck Institut für Metallforschung, Stuttgart, Germany 2005 (2 weeks),

Solid State Physics Institute, Russian Academy of Sciences 2009 (1 week),

Technical University Eindhoven, The Netherlands 2011 (1 week),

Technical University Eindhoven, The Netherlands 2012 (1 week).

Prizes and awards

2007 - Ph.D. with honour and Prize of the General Secretary of the Polish Academy of Sciences

2007 -2008 Foundation for Polish Science, START stipend for young researchers

2009 Prize for the best contribution in the Young Scientists Session during European Microbeam Analysis Society EMAS-2009 meeting: 11th European Workshop on Modern Developments and Applications in Microbeam Analysis, Gdynia/Rumia, Gdańsk

2010 Invitation for a sponsored attendance in Microbeam Analysis Society (MAS) meeting in Portland (USA) together with an invited talk

2011 Award of Polish and Russian Academy of Sciences for outstanding scientific achievements

2011 - three-year fellowship for outstanding young scientists granted by Ministry of Science and Higher Education

2012 Award of Director of IMIM PAN for the II prize in the young scientists group assessed for scientific achievements in 2009-2010

2014 Award for poster „TEM microstructures formed due to the reactions in Al/metal oxide couples” during XV International Conference on Electron Microscopy; 15-18.09.2014; Kraków, Polska

2014 Award of Director of IMIM PAN for the II prize in the young scientists group assessed for scientific achievements in 2013-2014

Education of scientific staff

Supervisor of M.Sc. thesis: Przemysław Romanów, 2007.

Vice-promoter of PhD student Katarzyna Stan within her doctoral studies with English language in the IMIM: "Aluminum alloys strengthened with quasi-crystalline particles based on the Al-Mn-Fe-system - microstructure and properties", 2010-2014.

Supervisor of PhD student Dagmara Fronczek within her doctoral studies in the IMIM: "Microstructural and kinetic characterization of the phenomena occurring on the clads' bonding surface manufactured using explosive welding", 2014-2018.

Organisation of conferences and scientific events

Member of the Organizing Committee of the Symposium on Techniques and Methods of Microstructure Characterization in Nanoscale, Kraków (2004),

Member of the Local Organizing Committee of Sixth International Conference on Diffusion In Materials (DIMAT), Kraków (2004),

Member of the Local Organizing Committee of Summer School on Mass and Charge Transfer in Materials (MCTM) Kraków (2004).

Member of the Local Organizing Committee of XII International Symposium on Explosive Production of New Materials: Science, Technology, Business and Innovation, EPNM-2014

Organizer of C2.1 panel Joining Technologies (area C:Processing, C2: Joining and Interfaces)
EUROMAT 2015, 20-24.09.2015

Membership in professional societies:

Polish Association for Materials Science (since 2008)

European Microbeam Analysis Society (since 2009)

Microbeam Analysis Society (since 2010)

Member and Secretary of Scientific Council of Institute of Metallurgy and Materials Science
Polish Academy of Sciences (since 2015)

Main scientific interest

Metal-ceramic composites, lead-free solder materials and modern soldering methods, methods of materials characterization including scanning and transmission electron microscopy.
