

The Head of the Library: Malgorzata Styczynska, Ph.D.

E-mail: library@imim-pan.krakow.pl

The Institute's library houses: scientific monographs, journals, standards, PhD and DSc theses (primarily by Instituteworkers), maps and atlases. The thematic range of books collected in the library covers the following fields: metallurgy, materials science, thermodynamics, physics, chemistry, mathematics and computer science.

The library provides access to 16 328 books and 9 317 volumes of foreign and Polish journals. It subscribes to 13 journals included in the list of the Institute of Scientific Information in Philadelphia, namely:

- Acta Materialia
- Calphad
- Cvetnyje metally
- Journal of Phase Equilibria
- Intermetallics
- Materials Science and Eng.R. Report
- Materials Science and Technology
- Materials Transaction
- Metallurgical Transaction A
- Metallurgical Transaction B
- Progress in Photovoltaics
- Scripta Materialia
- Zeitschrift fuer Metallkunde

The library is an important scientific-information centre both for the Institute staff and for scientists, students and researchers looking for professional literature.
